AFTER MARINE WRECKING, SHIP USES U.S. PORT

Destroyer of American Vessel and Many Others Seeks Repairs.

MANY PRISONERS OF WAR CARRIED

Master of Wm. P. Frye Tells Story of His Vessel's Sinking

NEW PORT, a., March 10.—The German auxiliary cruiser Prinz Eitel Friedrich, after a marine wrecking scouring of Pacific and Atlantic oceans which culminated in the sinking of an American sailing ship in the south Atlantic January 28 last, limped into this port today and anchored for supplies and repairs. She brought with her rescued crews and passengers of American, British, French and Russian ships and lies at anchor tonight proud of the trophies of war that crunch the bottom of the sea but in a state of mechanical exhaustion from the strain of a 55,000 mile journey.

The German cruiser began her expedition at Tsing Tau, China, last November. Commander Thierichens of the Eitel Friedrich admits sinking eight merchant ships, three British, three French, one Russian and one American. The sinking of the American ship, the Wm. P. Frye, a sailing vessel bound from Seattle to Queenstown with 5,200 tons of wheat, most concerned port officials here and the Washington government.

The list of vessels sunk by the German ship is as follows: British sailing ship Inverness, W. J. King, master; crew 22; owner J. W. King, Aberdeen, Scotland; sunk February 12. French steamship Mary Ada Short, A. B. Bobbing, master; crew 23; owner James Westcott of Sunderland, England; sunk February 18. French steamship Floride, Monsieun, master; crew 78; passengers 56; owners Compagnie Generale Transatlantique; sunk February 19. British steamship Wyllyby; J. (Continued On Page Two.)

MEXICANS STEAL AMERICAN WHEAT

In Evacuating Piedras Negras Carranza Forces Looted the Entire City.

EAGLE PASS, Tex., March 10.—It was reported here today that when Carranza troops early yesterday left Piedras Negras, the Mexican town opposite here, a mob looted the Mexican customs house, and four carloads of corn belonging to an American citizen were emptied by women and children. Some six hundred residents of the Mexican town are here, and those remaining in Piedras Negras have organized to protect property. Two houses, the property of a local transfer company, were taken by departing soldiers, it was said. Villa troops, the report of whose advance caused the remaining two hundred Carranza soldiers to evacuate, have not appeared, and in Carranza circles here tonight it was said the Carranza soldiers would return to Piedras Negras if Villa forces do not appear by tomorrow.

Governor Acuna, head of the district in which Piedras Negras is located, is among the refugees here. As far as could be learned here, no troops were left in Piedras Negras for police duty.

Red Hair a Divorce Exhibit. A Cleveland woman is suing for a divorce because her husband has red hair on her husband's shoulder. That's the trouble with red hair. It will come out.—Houston Post.

Two Figures In Recent New Haven Scandal

MRS. LOIS WATERBURY DUDLEY VIRGINIA J. MAYO.

NEW HAVEN, Conn., March 10.—The photograph shows the first published picture of Mrs. Lois Waterbury Dudley of Brooklyn, New York, for whom Lillian May Cook worked as nurse girl before Virginia J. Mayo gave her a position as stenographer in his office in New Haven. The authorities are investigating into the death of Miss Cook, whose body was found with a bullet through the heart, just outside the city. There is little doubt that she ended her own life but the coroner is determined to learn all circumstances even remotely connected with her death.

FLETCHER, HOWARD AND COWLES NAMED

President Wilson Designates Admirals Under a New Law.

IS SIGNAL HONOR ASKED TO NAME VALUE

Only Two Other American Naval Officers Held Such Rank.

WASHINGTON, March 10.—Under the new law creating the grade of admiral in the United States navy, President Wilson today designated as admirals Rear Admirals Fletcher, Howard and Cowles, commanders-in-chief respectively of the Atlantic, Pacific and Asiatic fleets. Secretary Daniels at once cabled (Continued On Page Four.)

Has No German Mail.

NEW YORK, March 10.—The Holland-American liner Ryndam, which sailed today for Rotterdam via Falkland, where she will deliver eighteen hundred bags of English mail, did not carry mail for Germany as usual. The mail for Germany will be sent on the Danish steamship United States, leaving here tomorrow. Officials of the line said they presumed the change was made because another ship was sailing the day following and the order was in line with the usual distribution of the mail contract.

NOT SO BAD, EIT?

Oh, the March wind doth blow. Yes, we've had enough snow. But if the skirts go up higher, You won't have to come nigher. To see the latest styles in socks and things. Honest, it has been so long since we've seen old Sol that we don't know whether he is round or square, and that's on the square. One of the assistant county attorneys said the other day that Tulsa was the driest town he ever saw. Guess he was raised in the middle of Sahara.

MAR 11

TEUTON TERROR OF WAR RAGED BY A TORPEDO

Eighteen Members of Crew of 26 Are Drowned; Was Old Vessel.

U-12 HAS PLAYED AN ACTIVE PART

Germany Makes Another Attempt to Break Enemy's Lines in Poland.

LONDON, March 10.—(8:50 p. m.)—The British admiralty announced tonight that the German submarine which was rammed and sunk today by the British torpedo destroyer Ariel, was the U-12 instead of the U-20 as previously stated.

The admiralty statement said: "Later and more detailed reports have now been received which establish the fact that the German submarine, which was rammed and sunk by H. M. S. Ariel was the U-12 and that out of her crew of 26 the number saved was 10. The submarine U-12 was an older and smaller vessel than the U-20. She was of the class built in 1910-11. Her displacement was 250 tons and she had a maximum cruising radius of 1,200 miles. Her complement consisted of 25 men. She was armed with three 18-inch torpedo tubes and two 4-pounder high angle guns. She had a speed of 12 knots above water and 8 knots submerged. The U-12 has taken an active part in the German operations against British shipping. On February 21 she sank the small Irish coasting steamer Downshire in the Irish sea after giving the crew five minutes in which to leave their ship."

LONDON, March 10.—(10:30 p. m.)

Balked at other points, the Germans are making another attempt to break through the Russian line of fortresses in northern Poland. They are advancing from Khorjela on the east Prussian frontier along the Orze river and by the roads leading southward to Praszyn. This is one of the routes the Germans took in their great rush from east Prussia in February, which finally ended in their defeat at Praszyn.

For their new attempt they have brought up troops which have been operating in the region of Grodno and some of the new army which has been training since the outbreak of the war in the interior of Germany.

The point selected for the attack is the most favorable along the east Prussian frontier for the splendid railway system can bring troops and their supplies to the border, from which good roads lead to Praszyn.

A big battle is developing in this region, while one of almost equal importance is in progress further north in the region of Suwalki, where the Russians have pressed the Germans back to their own border.

Without German Attacks. The Russians appear to have counter-attacked successfully the German offensive on the Pilsa river and in the Carpathians they are withstanding continued attacks along the whole front.

In the western zone the fighting as for many weeks past has been confined to the Champagne region, the Argonne and the Vosges although there has been an occasional skirmish north of Arras. The Germans in a long report issued today say that the French offensive in the Champagne has been fruitless which is at variance with the French reports of almost daily progress.

Grand River May Afford Source Of Water Supply for This City; Interurban Line Part of Scheme

GRAND river as a possible source of water supply for Tulsa occupied the attention of the citizens' water committee at its initial meeting in the assembly room of the Commercial club yesterday afternoon. Grand Stephens, a member of the committee, introduced a plan for interesting a private corporation in supplying water from the Grand, forcing it into the city by means of power gained from damming the river. An interurban line along the route is a part of the contemplated scheme.

Estimates of approximate cost for the Grand river project, made up by T. C. Hughes, city engineer, and W. E. Chasler, water superintendent, were presented. The total cost of an equipment for a 10,000,000 gallon supply is \$1,447,000, according to their estimates. This includes a 20-inch iron pipe line, pump stations, a basin at Tulsa, and intermediate stations. This amount of daily supply, it is estimated, would furnish a city of 100,000 people. The landed indebtedness of the city at present for the waterworks is \$485,000, which, added to the approximate cost, would be almost \$2,000,000.

Mayor Wooden Talks. It is estimated that \$2,000 will be needed to make investigations and surveys of a comprehensive nature of the Grand river site. Whether or not it would be wise to ask the city to expend that amount was discussed but no decision arrived at.

Mayor Frank Wooden, in talking, informed the citizens' committee as to what the commission expects. "Feeling that the people never think of bonds for any purpose," he said, "I have suggested that a body of representative citizens, we have asked you to get in that capacity," said the mayor. "We will furnish you with the information you demand. If you will hit me a feasible proposition. Then we will call for some or act according to your direction."

The committee will meet again this afternoon at 3:30 o'clock at which time the shell creek storage dam project will be presented in detail.

A government expert will be at the service of the city to check up on the dam project if its expenses are paid, according to the water commissioner. The committee intimated that it might authorize the city to have this expert examine all the projects in view.

Those who attended yesterday's meeting were: G. C. Stephens, J. H. McEwen, G. B. McCullough, L. J. Martin, W. O. Dickinson, Eugene Lorton, W. E. Brady, James Sloan, C. P. Alexander, T. A. Avey, William Stuyker, Oscar Howard, and G. N. Wright, Tom White, C. A. Sanderson, M. M. Dean and Glenn T. (Continued On Page Two.)

HENSHAW AND LOVE PROTECTED BY GUV

Make "Potato" Watson's Goat Is the Sentiment Among Democrats.

DURANT IS ACTIVE

Williams Has Whipped Democrats Into Line; Disregard People.

SUIT AGAINST WATSON.

OKLAHOMA CITY, March 10.—Thomas P. Watson, son of A. P. Watson, the latter's corporate commissioner, was made defendant today in a suit by Willard S. Levan for alienating the affections of Levan's wife. Damages are asked for in the sum of \$10,000.

A. P. Watson, a member of the corporation commission, is now under accusation to be tried by a court of impeachment.

BY GLENN GORDON, (Staff Correspondent.)

OKLAHOMA CITY, March 10.—Governor Williams' influence over the Democratic members of the legislature was plainly shown today, when the house of representatives voted to indefinitely postpone any action upon the resolution introduced last week by Representative McColister, Democrat, calling for a legislative investigation of the acts of Corporation Commissioners Jack Love and George Henshaw.

This action was taken in the face of letters and telegrams from all parts of the state urging that the entire corporation commission be probed. Evidence against Henshaw and Love was introduced before the Goodwin investigating committee last Monday, but was never made public. Pressure of the most severe nature was brought to bear upon Representative (Continued On Page Two.)

GOVERNOR SIGNS ELEVEN MEASURES

Staff Correspondence. OKLAHOMA CITY, March 10.—Governor Williams today signed the following bills:

By Chase of Nowata: Providing for sale of lands by the state taken on foreclosure proceeding.

By Smith: Support of Connell school of agriculture.

By Hunter of Comanche and Cotton: Support of Cameron school of agriculture.

By Pinkham: Appropriations from section 13 and new college funds for support of certain educational institutions.

By Chase of Nowata: Requiring certain county officers to make deposits of certain funds.

VILLA TO FIGHT WITH CARRANZA IF U. S. INVADES

Forces of General Obregon Have Not Yet Left the Mexican Capital.

AMERICAN NOTE HAS GOOD EFFECT

Line of Railway Communication to Vera Cruz Sought By U. S.

Bulletin. WASHINGTON, March 10.—General Carranza's formal reply to urgent representations of the American government concerning conditions in Mexico City, was received at the state department late tonight. It was called in code and is now being deciphered for submission to Secretary Bryan tomorrow.

E. L. PASO, March 10.—General Villa, in a statement received today from Torreon to the Associated Press, declared that in event of intervention of foreign troops to subdue the Carranza forces, he and all other Mexicans would unite against the invaders.

He denied recent interviews in American newspapers which he said had just been called to his attention, in which he was quoted as saying that he would not oppose armed intervention on the part of several powers. "To reduce the Carranza to order" provided that he would be made commander of such a move.

"There is nothing more grotesque and absurd than such an assertion," said the message from the northern leader, "since I am a true Mexican, always have insisted that all our troubles be settled solely among ourselves. All would unite."

"Should, unfortunately some nation invade our territory, I would be ready to fight against it without measuring the danger or the number of the invaders until I would see the entire country in the possession of Mexicans only. All of us would fight united against the common enemy."

General Villa made a similar statement, but one couched in milder language at the time of the American occupation of Vera Cruz. Then he stated that he did not sanction the alien invasion even if it would assist in combatting the Huerta regime. Other statements then credited to Villa that he approved of the invasion were denied subsequently by him.

General Frederick B. Funston, commander of the American expedition, (Continued On Page Four.)

CHOCTAWS HOPE TO SETTLE AFFAIRS

Will Hold Convention in Durant in April; May Mandamus Secretary of Interior.

Special to The World. MALESTER, Okla., March 10.—A general convention of Choctaw Indians will be held in Durant early in April for the purpose of deciding upon a definite program through which to attempt to obtain a final settlement of tribal affairs. At that convention, too, it will be decided whether or not to bring mandamus proceedings against the secretary of the interior to force a for equity distribution of funds now on hand. That plan was decided upon at a conference of Choctaws here today by members of the committee which prepared the resolutions which were adopted at the McAlister convention of last fall. The date of the convention is left with Hampton Tucker, chairman, to decide. It was expected that some definite action in the prospective mandamus proceedings would be taken at today's conference. But the members decided it would be best to have another general convention if mandamus is decided upon. Choctaws will raise money with which to employ private counsel, since Pat J. Hurley, tribal attorney here, has refused to file the suit requested by the McAlister convention.

"Temple of Peace." CONCORD, N. H., March 10.—General Nelson A. Miles, U. S. A., retired, advocated before the legislature today the proposal to erect a "Temple of Peace" at Put-in-Bay, Ohio, to commemorate one hundred years of peace between Great Britain and the United States.

Such a movement, he said, would have a strong tendency to crystallize and strengthen the sentiment for peace. Its cost is estimated at \$200,000, of which the state legislature are asked to appropriate a part.

New Federal Reserve Rates. WASHINGTON, March 10.—The federal reserve board tonight announced rates of 3 1/2 per cent on thirty-day maturities and 4 per cent on sixty-day maturities for commercial paper rediscounted by one federal reserve bank with another, such rediscounts must be filed with the reserve board and they will be apportioned among the reserve banks no such applications have been made so far.
